EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Johnston on November 16, 2007.

The application has been amended as follows: On Page 4 of 12 of the amendments to the specification filed on October 30, 2007, in the last line, "ball mount 210 by a nut 220" is replaced with --ball mount 210,220--. In claims 1-4, "An adjustable coupler lock, comprising:" is deleted. In claim 5, line 3, "rotatable" is replaced with --movable--. In line 1 of claims 13 and 14, "(withdrawn)" is replaced with --(previously presented)--. In claim 13, line 7, --thereby-- is inserted after "plate;". In claim 13, line 8, "one" is replaced with --either--. In claim 18, line 3, "rotatable" is replaced with --movable--.

The following is an examiner's statement of reasons for allowance: There is no suggestion in the prior art of record for using a lock body with a shaft which is movable in either of two insertion directions in a coupler and hitch ball environment. Previously withdrawn claims 13 and 14 are also now allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
